Let Greenwear benefit  
your business!

## Practical corporate wear that fits a viral free protocol

- Saving costs while maintaining quality and comfort
- Less wear and tear and therefore more durable.
- Improved wearing comfort for men and women.
- Strong company look.
- Re-order in small quantities.

## Greenwear increase the joy of working

Hygienic, comfortable and looking great. Your employees love to work in workwear that's comfortable and looks great. They feel more confident which, in the end, leads to a greater pleasure in their working day. When workwear fits, breathes and looks great everybody will be happy.

## The greenest way to save energy is not to use any

The most durable way of production is not to produce at all. The best way to dry workwear is to get it out of the washing machine as dry as possible.

- Our production is in Portugal (travelling time 4 days vs 6 weeks on a ship)
- Drying time workwear minus 50%
- 3x Longer lifetime
- Replacing disposables for light overalls
